Lady popular

The month of the fairy tales in Lady Popular is over and this put an end to the unique Gold Fever event which took its place in all of our ladies' hearts! After the fairest month we are changing the direction and we're jumping right into all of the excitement which June is about to offer!

During this month Lady Popular Team will help all of our ladies to get in shape again for the upcoming summer! In accordance to all the sport events this summer, we decided to show our ladies that a manly sport can be actually presented in a fashionable way!

A new event offering a bunch of sport emotions starts in Lady Popular – Lady Championship! During the Lady Championship, all of the ladies will have to play 7 football matches on 7 stadiums. Every stadium will be unlocked on a certain date, but if they want, they can unlock a selected stadium and play the football game in advance.

Every stadium consists of fields - ladies have to open the fields in each stadium and score goals. Opening a field requires an energy drink. Players have 1 free energy drink every day and they can buy more energy drinks to open the fields faster and win the football games. Every field opened gives our ladies a reward - IQ, dollars, energy drink, or a ball. Winning a ball means scoring a goal. The more goals our ladies score the more great rewards they win – profile backgrounds with some of the best football players and unique cheerleader costumes!

Take part in the biggest sport event, where you can show your football skills from 14.06.2012 until 02.07.2012!

And the end of the Lady Championship event doesn't put an end to all the sport emotions during this month! A brand new store opens its doors at the Furniture shop, offering all of our ladies the incredible opportunity to buy unique fitness equipment for their apartments! Now our players can buy the fitness equipment they need in order to get in shape and show a healthy body during the upcoming summer! The Home Fitness store opening is on 19.06.2012 and it will remain in the Furniture shop for all the sporty ladies who want to keep themselves fit!

And few days after the grand Home Fitness store opening ladies will find a newly opened store offering a brand new summer collection! Unique dresses will make your lady look fresh in the hot summer days, and vivid colors will maintain the good summer mood and smile! Colorful and stylish - this is the name of the summer this year!

The unique summer collection will be available for all of our ladies from 21.06.2012 to 05.07.2012!

Live all of the sport emotions in a brand new and fashionable way! Let the summer enter your wardrobe and enjoy all the surprises during the exciting June!
