July was the month of Magic in Lady Popular. Players had the chance to participate in a special event called "In search of the Phoenix". From a mystery box in the Mall they could win magic swords that were used for killing the snakes hidden in the game. The reward for killing 50 snakes was an extraordinary pet – a Phoenix.

The hottest month of the year August began with a collection of stylish lingerie and ended with the latest event in the game "Lady Music Awards". Players had the chance to collect music notes, win extravagant clothes and special hairstyles and make their Ladies look like real Music Stars.

The summer is almost over but surprises in Lady Popular will certainly continue.

The month of ghosts and magic creatures is approaching and it is time for a mysterious city to appear. The Ghost city appears only once a year, and only in October... because it is under the spell of an evil witch.

The evil witch has been hiding the Ghost city for centuries and no one has succeeded in breaking the spell yet. With every passing year, and with each of the thousands of unsuccessful attempts to break the spell, the witch becomes stronger and is now more powerful than before. But! There is a way to break the Ghost city's spell and take away the witch's power – you can weaken her magic by stealing everything she has. That's right! Once all the possessions of the evil witch are in the right hands, she will lose all her magic powers and the Ghost city's hiding spell would be broken.

Your main task is to explore all the zones in the Ghost city and find all the items owned by the witch. Each zone contains 1 map hiding different unique items: Halloween apartment decorations and furniture, unique Halloween outfits, special Halloween hairstyle and many more.
