Lady popular

New season, new emotions! Get ready for the upcoming fashion storm!

Lady Popular team invites all of our players to visit some of the most exotic countries and win great rewards!

Ladies can find 6 maps of 6 different countries - Spain, Japan, Puerto Rico, Tanzania, India, and Italy.

Every map is unlocked on a certain date but in case players feel impatience, they can always unlock the map they want to explore in advance!

During their trip around the countries they need tickets which help them explore the countries. Every day ladies receive 1 ticket for free so they can try their luck!

While exploring a country players can collect parts of the most stunning traditional outfits!

When they explore a whole country, they get a beautiful background for their profile to remember their trip!

The Globe event is available for all of our players until 04.10.2012!

Don't miss the chance to visit these unique countries!

And because we know the whole excitement our players feel about new trendy clothes, we offer them a brand new store at the Mall - Autumn Beauty, where they can check a new wonderful collection.

Ladies will find the best selection of modern garments which will make them look just perfect during this season.

Choose from the great variety of accessories and clothes and create fancy outfits!

The Autumn Beauty store will be open for all of the ladies until 09.10.2012 so they can add everything they want to their wardrobes!

After the trendy September, don't miss the exciting October, too! Because surprises in Lady Popular never end!
