During the month of November all Lady Popular players have the incredible chance to experience the power of love. The new thrilling event “Wedding after dark” is the main reason for the whole community’s good mood and excitement.

The event “Wedding after dark” made all the ladies fight for their real love. It was time for the Ladies to get married but before reaching the “Lived happily ever after” moment they had to fight against the werewolves that were trying to stop them get married. The players have to kill as many werewolves as they can while preparing their Ladies for the wedding day.

In order to help the players complete their mission, Lady Popular team placed a special Wedding chest at the Mall. Some of the rewards hidden in the Wedding chest are dangerous weapons (which help players to kill the werewolves) and a marvelous wedding outfit for the Lady. After the players collect all the Wedding items from the Wedding chest, they are rewarded with the most important item for the bride - a marvelous wedding dress!

But that is not all! The more werewolves the players kill, the stronger the feelings between

their Lady and her beloved man become. When the players kill more than 50 werewolves, they reach the "Lived happily ever after" moment and as a reward they win a stunning photo from the Lady's wedding which could be set as a profile background of their happy Lady!

The "Wedding after dark" event lasts for about 2 weeks and it is going to end on November 30, 2011.
