

MANAGORE

After the countless days and nights filled with fiery infernos, the vicious dragon Managore shocked all creatures that inhabit his mystical realm. His fiery elemental power has been replaced by and icy elemental power and this brought the winter to Managore. The green elfish groves have withered and the snow has caused the branches of centennial trees to bow. The golden deserts of the Orcs are covered under a blanket of snow. The intense whiteness, in the land of the Undead, blinds every dark creature that has dared to leave the accursed castle.

Along with the cold a glimmer of hope appeared in the empty wastelands – a legend about Santa Clause and the Magical power of his clothes...

The silent and holy night is upon us. It will start on December 15-th 2011 and will, like a polar night, last for a long time. From December 15-th 2011 until January 10-th 2012, Santa's cap will be spreading the Christmas spirit, while Santa himself will be giving away presents at the unforgettable Christmas duels. Nevertheless, there will be

gifts only for the ones that deserve them, of course, with their victories and courage in the glorious duels. Every hero will have the chance to try-out against good old Saint Nick and prove that are worthy of a gift.

Christmas duels will be done at the Arena and will give each player the chance to win Santa's magical artifacts set. Each 100 victories over Santa will give you an artifact from the set. The set is comprised of the following artifacts – Santa's Hat, Candy Cane, Presents, Christmas Star, Santa's Gloves, Santa's Coat and Santa's Boots. Depending on the type of hero attacking Santa, only 1 of the weapons can be won (Candy Cane, Presents or Christmas Star). By equipping the entire set, regardless of the weapon type, you will receive an additional bonus.

DON'T WASTE A SINGLE MINUTE ~ LET'S CELEBRATE CHRISTMAS IN THE WORLD OF MANAGORE!
