

The times, when the shadows last roamed the earth freely, are now long forgotten. Since these times people have believed in a superstition that once a year they have to make a special ritual in order to prevent the shadow forces of evil from returning to the realm.

The thing that they remember and believe in is that they must do the rituals by the example of their idol – Jack. A simple blacksmith and well known drunk, who made a deal with the devil, but used his simple wisdom to cheat and beat the devil.

That way Jack became the only person who is known to have made a bet with the devil and won, beating his evil intentions.

The fear is now set in people's hearts and they made Jack into the newest instrument of Managore's evil. Accidentally or not, the shadows have returned and from so much trick-or-treating, there are no more treats left, only tricks.

Jack-o'-lantern is the new invader in the realm of Managore, he has spread his presence all over the map and must be beaten at his own game, for the balance to be restored.

This is where you come in! Halloween is here and waiting for you to venture into the world of Managore, where the idol Jack-o'-lantern is spreading terror. Use your most terrible trick and defeat the Jack-o'-lantern, to get all the respect and grandeur, you deserve.
